### TAILORFIT IQILLOW DESIGN

Brighter waves of sleep have developed pillows using a unique IQillow™ 3 layer design, which offers more than 7 firmness options so you can finally be in charge of your own comfort.

### HEALING COPPER

For centuries copper has been known for its anti-bacterial properties; we use it in our pillows to keep bacteria at bay and your skin clean and protected while you sleep.

### SUSTAINABLE

Brighter pillows are super comfortable and eco-friendly thanks to our use of RefineX™ fibres, which is made from regenerated plastic bottles.
